

Job Description

This job description has been designed to indicate the general nature and level of work required of the post to indicate the level of responsibility. It is not a comprehensive or exhaustive list, and the line manager may vary duties from time to time which do not change the general character of the job, or the level of responsibility entailed.

Post Details	
Job Title	Business Analyst
Job Reference	713035
Service	Chief Executives Office - Business Change
Team	Process Re-Design
Location	Shute End, Wokingham/Home Working
Reports to	Change and Re-Design Lead
Responsible for	Potential for 1 or 2 FTE (graduates grade 6)
Grade	8
Contract Type	Permanent
Hours	Full Time

Main Accountabilities	
1.	Lead service process re-design workshops, focusing on efficiencies, improvements, digitalisation, and automation whilst also considering the customer journey, to design easy, equitable and accessible services for customers.
2.	Support services to identify high volume processes, high volume customer interactions, customer thought processes and reactions, which reveal opportunities for improvement, efficiencies and innovation in the customers experience (both internal and external)
3.	Use data and insight to identify opportunities to make recommendation and deliver efficiencies across the transformation portfolio by creating scoping documents and analysing current service performance. (review of website, applications, process volumes, and customer contact etc.)
4.	Facilitating effective workshops with stakeholders and Subject Matter Experts (SMEs) that apply the organisations design principles and deliver the desired outcomes.
5.	Liaising with internal and external stakeholders to ensure the appropriate requirements are gathered and understood so that they can be applied correctly to maximise identified benefits.
6.	Responsible for the collection and creation of supporting materials for each business process, such as outgoing customer documentation, web content, process stage procedures and training documentation, ensuring consistency and a customer-centric approach.
7.	Responsible for the creation and review of documentation for re-designed processes that support the development of new ways of working and improved process-specific technology functionality; to include workflow diagrams, case studies and user stories where appropriate.
8.	Support and work with the Change and Redesign Lead to find and deliver efficiencies savings across the organisation through process redesign and innovation.

9.	Promote the values of the Business Change team and Business Analysis function throughout the organisation.
