

Dear Prospective Applicant,

Thank you for your interest in King's Academy Easthampstead Park. I am proud to lead a committed and talented team dedicated to providing high-quality teaching and learning.

We thrive on a 'can do' culture and a 'solve it together' approach. We understand that while working in education is challenging, your success is paramount to ours. As part of our team, you will benefit from:

- A supportive Senior Leadership Team (SLT).
- An outstanding Continued Professional Development (CPD) offer.
- The recognition that we cannot succeed without you.

Teaching and learning are at the heart of everything we do. We view educational change not as a hurdle, but as an opportunity for creative and innovative solutions. Our dedicated staff work hard, exercise good professional judgment and are committed to maintaining our success through consistency and a shared pursuit of excellence.

Our clear vision is to become the first-choice destination school for our designated catchment and beyond a view strongly supported by our Local Governing body.

We provide excellent, well-used staff facilities, dedicated teaching room computers, and a strong range of performance, creative, and sports facilities that support both the curriculum and extended school programs.

We are looking for individuals who share our 'can do' culture, can build effective relationships at all levels, and will add value to our daily practice, aligning with the core King's Academies values of Honesty, Faith and Courage.

Candidates invited for interview will receive a tour led by our proud Student Ambassadors, who are active participants in the recruitment process.

If you are that person, I look forward to receiving your application and meeting you.

Best wishes,

Mr M Hall
Head of School
