As part of the Early Years & Family Service in Flintshire, EPEC (Empowering Parents, Empowering Communities) provides successful, evidence based support to families, including those waiting for neurodevelopmental assessments and services. In this role you will work alongside skilled volunteers and families in their local communities, helping them feel listened to, building parental confidence and sharing strategies that fit individual lives and circumstances.

We're looking for someone who can build trusting relationships with parents, carers and professionals, being curious and open to existing perspectives and emerging evidence. Running our regular groups is a key part of this role so confident facilitation and organisational skills are key; this role is also critical in shaping our forward planning, working with key partners and ensuring outcomes for families are consistently high.

Some experience of data collection and working with evidence based outcome measures would be beneficial. Lived experience of neurodivergence is valued in our small team and we offer comprehensive training to develop and support our busy, thriving service. Prior knowledge of the Wales Safeguarding Procedures and the underpinning principles of the UNCRC will be required.

If you would like to apply for this role on a secondment basis please ensure you have approval from your line manager before submitting your application. Welsh speaking and writing skills are desirable
